Profile

Determined and organized Full Stack Junior developer from Venezuela eager to solve the toughest of problems. Training cast members at Walt Disney World Resort for 3 years has turned me into an easy-going person who loves teamwork.

Experience

May 2017—Present
Food & Beverage QSR Trainer • Disney • Orlando
Provided cast members with the knowledge and technical s kills to operate 7 different locations while projecting a positive attitude towards guest. Reinforced the importance of the four keys and how to apply them to great guest experience. Assessed cast members to finalize training and confirm they were ready to provide the guest exceptional customer service.

Education

August 2012 – December 2015
Associate in Arts in Engineering • University of Central Florida • Orlando, FL

August 2020 - Present
Full Stack Bootcamp • University of Central Florida • Orlando, FL

Projects

Wine&Dines - https://andrewrb22.github.io/-.theFederationOfCoders-/
Food and Wine pairing application built with HTML, CSS, and JavaScript. With Wine&Dines the user has the freedom to choose from four proteins to build a random recipe which will be paired with a group of wines that go well with this dish.

Weather App - *https://tiroxxx.github.io/weatherDashboard/*
Weather Application built with HTML, CSS, and JavaScript that lets the user search a city in the United States and shows the current weather as well as a 5-day forecast.

Star Wars Quiz – *https://tiroxxx.github.io/QuizGame/*
This quiz was built with HTML, CSS, and JavaScript. If you are a Star Wars fanatic this is the perfect quiz for you. Questions taken from all the Star Wars trilogies will really test how much you think you know.
